Add: No.62, Xinhe Management of Area, Wanjiang District, Dongguan, Guangdong, China

Product summary:

Mobile phone charger plugged life testing machine suitable for mobile phones and other similar products in rolls falling testing, with 6 digital display count, there are two test warehouse can test 2 samples at the same time. Used in continuous terrors turn (falling) experiments for mobile phone, PDA, electronic dictionary, CD, MP3 etc, all kinds of small, light quantity and portable electronic products, connectors and remote control. When it meet the requisite number. Investigation in damage

Meet standard:

GB/T2423.8-1995 , IEC60068-2-32,Ed2 , GB/T2423.8-1995

Technical parameters:

Model	ZL-2802
Testing speed	5~20 times/min
The height of test roller	0.5 1m/1 m
Roller test warehouse number	2 PCS
Count	6 digital display count(1~999999)
Max weight of sample	5kg
power	1phase 220V ,50-60HZ
Machine size	1500*1320*1130(mm)
Weight	(about)200kg

Machine Certificate:

Company Introduction:

Zhongli Instrument Located in Dongguan, Guangdong, China. It is a collection development, research, production and sales of integrated lab testing machine.

Zhongli attaches great importance on the construction of independent R&D ability and technical force, and has already built up a professional work team possessing independent R&D ability in order to design and produce better products to meet customers' requirements. Our machines adopt advanced technology and have good quality with high detecting sensitivity, strong anti-interference ability, stable performance etc. Customization is available in Zhongli, and our engineers can design drawings for customers to meet special requirements, also we can design and install machines according to different production lines.

We adhere to the conception of "Customer First", regard meeting customers' requirements as a primary goal and contribute to providing perfect products and satisfying services to our customers.
