Zhongli instrument, makes your laboratory more professional.

Features:

This machine adopts high-end technology - touch screen control

1. Test station: 3;
2. It adopts mechanical reciprocating design, equipped with motor drive, and the upper and lower compression mechanism adopts linear bearing motion mode, so that the positioning test is accurate and the operation is stable;
3. Using touch screen control, the maximum count is 99999999 times;
4. Using touch screen control, the speed of the test can be directly set;
5. The three groups work together, the operation is simple and the detection is accurate;
6. Using low voltage control, safe and reliable.

[Technical Parameter]

Control method	Touch screen control
Test speed	50-300rpm adjustable
Test times	99999999 times
Motor	Stepper motor
Height adjustment	Manual direct adjustment
Machine size	800×400×780mm
Power supply	1 ϕ , 220V, 6A or specified
Weight	About 150kg
